## Company Profile

Established in the year 2004, we Techno Enterprise is a Dominant firm involved in manufacturing, supplying and installation of Pyrolysis Equipment and Waste Tyre Recycling Plant. We also have our 3-manufacturing unit, which has been operating since 1993 regarding pharmaceutical machinery , chemicals plant, minerals plant, food processing plant, textile plant etc. Moreover, **Techno Enterprise** has introduced the most viable process for recycling plastic scrap and used tyre into fuel oil, carbon black, steel wire and hydrocarbon gas. Our Eco-friendly technology is known for transforming over 10 billion squirrel away tyres around the world into energy.

At our ultra modern infrastructure, we have been manufacturing a premium range (2 to 3/years) of recycling equipment. We are known for providing complete recycling solutions to clients with proven technologies. Along with this, we possess vast experience in Designing, Developing and Quality of equipment, along with technical analysis. Our pyrolysis plants are constructed & examine under the Diligence of our qualified experts, who ensure to dispatch only a qualitative range to customers. We also provide customized solutions to clients as per their specifications.

Under the constant support of our Managing Director, '**Mr. Sudhir Patel**'. We have been growing in this industry. His tremendous knowledge, leadership, expertise skills and experience has enabled us to export our products to all over India.
